

Assessing competencies in the GP Training

1. Explore status-quo of WBA

Focus groups to explore how WBA is used in the GP Training

Main issues: no outcomes, no structure, little feedback

2. Define outcomes for WBA

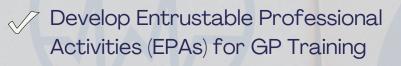

Delphi-study to validate CanMEDS competencies

CanMEDS framework for GP Training

Main issue: no comprehensible language

3. Structure WBA

Validate EPAs: Delphi study

EPAs for GP Training

4. Promote feedback after WBA

Qualitative study: trainees, trainers, supervisors

Evaluation of WBA based on EPAs

Impact on practice stakeholders
